## Dishing with Julia Child

**SERIES PREMIERE**

**FRI Apr 3 | 10p**

Julia Child was quirky – unpolished for television and irresistibly whimsical. More than 50 years after its debut, *The French Chef* remains important television. In this new series, some of today's most popular celebrity chefs and food experts share personal insights and engage in lighthearted conversations as they screen – and delight in – some of Julia Child's most beloved episodes. Featured celebrities include Martha Stewart, Jacques Pépin, Vivian Howard, Marcus Samuelsson, José Andrés, Eric Ripert and Rick Bayless.

## Masterpiece: World on Fire

**SERIES PREMIERE**

**SUN Apr 5 | 9p**

This new series from *Masterpiece* is an emotionally gripping World War II drama that follows the intertwining fates of ordinary people in five countries as they grapple with the effects of the war on their everyday lives. Starring Helen Hunt, Sean Bean and Jonah Hauer-King, the first season of this series is set during the first year of the war.

## The Gene: An Intimate History

**SERIES PREMIERE**

**TUE Apr 7 | 8p**

This two-part series vividly brings to life the story of today's revolution in medical science through tales of patients and doctors at the forefront of the search for genetic treatments. Presented by Ken Burns, the series also explores the compelling history of the discoveries that made modern treatments possible – and considers the ethical challenges raised by the ability to edit DNA with precision.

## Independent Lens: Bedlam

**MON Apr 13 | 10p**

Haunted by the death of a mentally ill sister, psychiatrist Ken Rosenberg takes on the role of filmmaker to examine a national health crisis. *Bedlam* follows the poignant stories of people grappling with schizophrenia, bipolar disorder and other chronic psychiatric conditions. Impossible to mask when untreated, their symptoms shove them into the path of police officers, ER doctors and nurses, lawyers and prison guards. Rosenberg takes us inside Los Angeles County's overwhelmed psych ER, a nearby jail warehousing thousands of psychiatric patients, and the homes – and homeless encampments – of people suffering from severe mental illness.

### Nature: Cuba's Wild Revolution WED Apr 1 | 8p

Cuba is the largest island in the Caribbean, and one-fifth of its territory is protected habitat for spectacular wildlife found nowhere else on the planet. This film explores the jumping crocodiles of the Zapata swamp; the bee hummingbird, the world's tiniest bird; the island's spectacular crab migrations; and much more. Decades of American embargoes and minimal development have left Cuba virtually unchanged in 50 years. But as international relations thaw, what will become of this island paradise?

# NATURE

## Remarkable Rabbits

WED Apr 8 | 8p

There are more than a hundred kinds of rabbits and hares, both domestic and wild. Their territories stretch from the Rocky Mountains to the deserts of Arizona, from downtown Chicago to Canada's frozen boreal forest. Yet these underdogs are often overlooked and rarely get the respect they deserve – due, in part, to their adorable appearance and storybook depictions.

Explore how surprising and resilient rabbits and hares can be as they face the incredible challenges in the wild, from habitat loss to climate change.

## Broken Places

MON Apr 6 | 10p

Why are some children permanently damaged by early adversity while others are able to thrive? To answer this question, filmmaker Roger Weisberg dug into his extensive film archive to update some of the stories of the abused and neglected children he filmed decades ago. Viewers are given a unique time-lapse perspective on how the trauma that these children experienced shaped their lives as adults. The film interweaves these narratives with commentary from experts in neurobiology and child development to illuminate the impact of childhood adversity as well as the factors that can foster resilience.

April 30–May 2, 2020

The Crosscut Festival is three days of thought-provoking conversations and innovative thinking, tackling the most important issues of our time. Journalists, politicians, authors and newsmakers from our community and around the nation come together to take a hard look at the people, policies and events that shape our lives.

The festival kicks off Thursday with the Headliners Gala, a special fundraiser that celebrates the region's great public media and journalism; Judy Woodruff, anchor of *PBS NewsHour*, will be our honored guest. Friday programming includes free sessions featuring local journalists, as well as an opening-night keynote moderated by Woodruff.

On Saturday, the Crosscut Festival takes over the Seattle University campus for a day full of conversation and activities featuring more than 100 speakers.

**Tickets are on sale now at [crosscut.com/festival](http://crosscut.com/festival).**

## Secrets of the Dead: Building Notre Dame

TUE Apr 28 | 8p

Built more than 800 years ago, the cathedral of Notre Dame is an iconic monument of Gothic architecture. This program was filmed before the tragic 2019 fire, but it provides insight into how the great church managed to stay standing – as well as why the world reacted with an outpouring of sadness and support for it. Featuring historians, scientists, architects and engineers, “Building Notre Dame” explores how this masterpiece of human ingenuity, with its soaring arches and Rose Window, was created.

## Inside the Vatican

TUE Apr 28 | 9p

Filmed over the course of Pope Francis’ fifth year at the helm, this two-hour program gives viewers a deeply human insight into the workings of the Catholic Church during the preparations for Easter celebrations at St. Peter’s Basilica. From Pope Francis himself to his head of security, the nuns who serve the homeless, the choristers of the Sistine Chapel, the papal gardener, the chief of the diplomatic corps and many others, the program offers a unique glimpse into the lives of those who live and work in this independent city-state.
