## AMERICAN EXPERIENCE

### The Codebreaker

MON Jan 11 | 9p

In the 1940s, Elizebeth Smith Friedman was a pioneer in the science of cryptology, working for the U.S. government. During World War II, she and her team decoded thousands of encrypted Nazi messages, bringing down a massive spy network in South America. Friedman's work saved thousands of lives, stopped fascist military coups, and sent dozens of Nazi spies to prison. Yet her mission was a secret that would go with her to the grave.

### AMERICAN MASTERS

#### How It Feels to Be Free

MON Jan 18 | 9p

This documentary tells the inspiring story of how six iconic African American female entertainers – Lena Horne, Abbey Lincoln, Nina Simone, Diahann Carroll, Cicely Tyson and Pam Grier – challenged an entertainment industry deeply complicit in perpetuating racist stereotypes, and transformed themselves and their audiences in the process. The film features interviews with, and archival performances by, all six women, as well as original conversations with contemporary artists influenced by them.

### Secrets in Our DNA

**WED Jan 13 | 9p**

Caught up in an explosion of popular interest in genealogy research, more than 12 million Americans have sent their DNA to be analyzed by companies like 23andMe and AncestryDNA, hoping to obtain clues to family origins and forecasts of their future health. But what actually happens once the sample is in the hands of testing companies? What are they looking at, and how accurate are their results?
